PROFESSIONAL STATEMENT

Results-driven ICT and Operations professional with over 1 year of experience in technical support, data management, digital operations, and administrative coordination. Skilled in ICT support, networking, cybersecurity fundamentals, data analysis, website management, and digital content operations, with the ability to support efficient business and organizational processes. Proficient in Microsoft Office Suite, SQL, Tableau, Google Workspace, Canva, and digital communication tools to streamline workflows and improve operational efficiency. Experienced in troubleshooting hardware and software issues, maintaining digital records, coordinating teams, and supporting data-driven decision-making in fast-paced environments. Passionate about using technology and digital solutions to solve problems, improve productivity, and enhance organizational performance. Eager to continuously expand my knowledge in ICT and cybersecurity while contributing strong analytical, technical, and communication skills to a dynamic organization.
